The Manager's Guide to Discipline Dec 22 2021 For most managers, let alone the employees involved, the disciplinary process can be painful and embarrassing. Poor performance tends to be confused with misconduct and consequently carries the stigma of punishment; this despite the fact that most company policies and indeed the ACAS Code (correctly) put emphasis on improving behaviour or performance, rather than punishment. Derek Eccleston's concise guide provides a clear picture of the purpose and the process of the disciplinary procedure. This toolkit approach contains invaluable information and includes clear checklists and sample letters to help guide managers and supervisors through the minefield of employment rights, explaining what to do and how to do it. Written in a no nonsense way, The Manager's Guide to Discipline is free of legal jargon and focuses on the practical issues throughout. It will help to protect the organisation, whilst ensuring matters are dealt with, not left or brushed under the carpet because of a lack of management confidence. This essential reference will encourage managers to approach performance and disciplinary problems proactively and with more confidence and will significantly reduce the risk of getting it wrong.

Patents in Germany and Europe Aug 25 2019 Germany's patent system presents unique opportunities for patent holders, as well as risks for companies doing business there. Germany is one of the world's top jurisdictions for patent enforcement because of the expertise of German courts, their unique procedures, and the speed of these proceedings. Winning a patent suit in Germany is tantamount to winning the European market, and gives the patent owner substantial leverage over opponents to achieve a worldwide settlement. In addition, suits in Germany frequently resolve well ahead of United States counterpart suits, at a fraction of the cost. This handbook, now in its second, fully updated edition, provides international lawyers with a practical understanding of Germany's patent system, including the many legal changes that have occurred since the book's original publication in 2011. It also addresses the implications of the upcoming Unified Patent Court. This second edition provides an in-depth, step-by-step procedural analysis of aspects of current patent practice in Germany, including the following: □ Germany's split system that bifurcates infringement from validity cases; □ Obtaining discovery; □ Budgeting; □ Implications of the upcoming new patent system, in particular the Unified Patent Court; □ Germany's labor law regarding employee inventions; and □ Customs actions. The authors □ both experienced patent lawyers, one German, one American □ present proceedings in Germany in parallel with corresponding patent litigation stages in the United States. The chapters track the course of patent disputes, starting with the overall structure of the German judicial system, followed by topics such as patentability, patent procurement, oppositions, infringement trials and customs enforcement actions. This book concludes with an extensive selection of forms and legislative material. Understanding the opportunities available in Germany provides companies with a broader toolkit for enforcing their intellectual property rights and defending against challenges brought by others. Practicing patent lawyers will not find a more complete, informed and practical guide than this book explaining the framework for patent procurement, enforcement and defense in Germany. Many will find surprising options without parallel in the United States.

Employment Law 2021 Oct 08 2020 Employment Law introduces the issues involved in the regulation of employees and their relations with their employers. It explains the framework governing employment contracts, dismissal procedures and redundancy payments. The book also covers TUPE, discrimination law and family-friendly legislation, as well as practice and procedure. The book has been comprehensively updated to take account of all the main recent and proposed developments in employment law and practice, including the recent guidance issued by the Equality and Human Rights Commission on the use of non-disclosure agreements to settle employment claims, and an updated summary of the key cases on annual leave, including the Court of Appeal's decisions in The Harpur Trust v Brazel and Flowers v East of England Ambulance Trust. A number of key European court cases are considered, including two ECJHR decisions looking at the privacy in the workplace (Garamukanwa v UK and Lopez Ribalda v Spain) and the ECJ decision in Federación de Servicios de Comisiones Obreras v Deutsche Bank (keeping records of time worked). The Last Letter Apr 01 2020 □ The Last Letter is a haunting, heartbreaking and ultimately inspirational love story. □ In Touch Weekly Beckett, if you're reading this, well, you know the last-letter drill. You made it. I didn't. Get off the guilt train, because I know if there was any chance you could have saved me, you would have. I need one thing from you: get out of the army and get to Telluride. My little sister Ella's raising the twins alone. She's too independent and won't accept help easily, but she has lost our grandmother, our parents, and now me. It's too much for anyone to endure. It's not fair. And here's the kicker: there's something else you don't know that's tearing her family apart. She's going to need help. So if I'm gone, that means I can't be there for Ella. I can't help them through this. But you can. So I'm begging you, as my best friend, go take care of my sister, my family. Please don't make her go through it alone. Ryan
