Object Lessons Jan 02 2020 A passionate advocate of identity studies and a keen reader of U.S. institutional politics, Robyn Wiegman turns her attention in *Object Lessons* to the critical practices and political ambitions of identity-based fields. In a series of case studies drawn from womens studies, queer studies, ethnic studies, and American studies, she examines the unspoken belief that better theory will produce progressive social change in order to consider the political desire that fuels current scholarly debate. Her metacritical analysis is neither a defense nor a dismissal of such political commitment but a sustained inquiry into the hope it generates, the thinking it inspires, and the conformity it inadvertently demands.

Health, Coping, and Well-being Feb 12 2021 Over the past decades, the field of health psychology has witnessed a tremendous growth, and social psychologists have contributed substantially to the theoretical foundation of this field. Their research has focused on a wide variety of health-relevant topics such as how individuals decide to respond to threats to their health and well-being, how and why they change their behavior to avoid such threats, and especially, how they adjust to or cope with the risk of threatening disease and with the diseases themselves. As diverse as this literature may be, however, there does appear to be a common theme throughout much of it--the observation that comparison of oneself and one's health status and coping efforts with others is an integral part of the coping process. Consequently, social comparison theory is increasingly becoming recognized as a fruitful framework for illuminating health related issues. A still expanding literature is exploring the role of social comparisons with respect to coping with a wide range of health problems, including cancer, physical decline among the aged, rheumatoid arthritis, AIDS, stress at work and occupational burnout, and eating disorders. Social comparison theory has augmented knowledge about the ways in which people cope with stressful events, and thus has contributed significantly to it. At a more basic level, research in this applied context has made significant contributions to the development of social comparison theory itself. The present volume presents an overview of the various ways in which social comparison theory has been applied to issues related to health, coping, and well-being, and also points out how these applications have contributed to our insight into the way humans employ social comparison information. Given the attention paid to theoretical and applied issues, this volume will appeal to a wide audience, including social and health psychologists, as well as therapists, physicians, clinicians, medical sociologists, nurses, and those involved in the growing field of nursing research.

Forrest Gump Jun 30 2022 The modern classic that inspired the beloved movie starring Tom Hanks. Six foot six, 242 pounds, and possessed of a scant IQ of 70, Forrest Gump is the lovable, surprisingly savvy hero of this classic comic tale. His early life may seem inauspicious, but when the University of Alabama's football team drafts Forrest and makes him a star, it sets him on an unbelievable path that will transform him from Vietnam hero to world-class Ping-Pong player, from wrestler to entrepreneur. With a voice all his own, Forrest is telling all in a madcap romp through three decades of American history.

Groom, Winston - Forrest Gump as an Example of the Transformation from a Novel into a Movie Oct 23 2021 Facharbeit (Schule) aus dem Jahr 1998 im Fachbereich Englisch - Literatur, Werke, Note: 1, Priv. Gymnasium Marienstatt, Veranstaltung: Leistungskurs Englisch, Sprache: Deutsch, Abstract: "Hello - My name is Forrest, Forrest Gump!" Everyone who knows the movie Forrest Gump remembers this first sentence, the beginning of Forrest's story. This sentence is an introduction as well as the foundation for a story that describes Forrest's life in a very detailed way. In the film Forrest is a narrow-minded, naive and completely innocent boy from the Deep South who lives in a very strange way through a decisive period of America's immediate past. His participation in this period is so strange because he is actively making history without realizing that; he only lives from day to day - and his most immediate goal is to finally reach his one and only love - Jenny. Therefore, his life can be described as "accidental-like on a breeze", and at the same time he has a "destiny" as well - and in the end Forrest is smart enough to understand this paradox of his life. Forrest Gump is basically a mirror of the sixties and seventies of our century. Through his eyes we can see our immediate past. "We" includes the older audience - who lived through that period themselves - as well as the younger audience who can learn a lot about the era of their parents. The movie touched the souls of many Americans who can identify certain parts of their own life (or the life of their parents) in that of Forrest, but those feelings were shared throughout the world by many nations as well. But the movie itself is based on a novel written by Winston Groom. Here the author describes a different Forrest Gump - and yet the same. This other Forrest Gump had a different life, but the key elements are still the same in his modified "counterpart". Therefore it will be my goal to find out by what means and how well Groom's original novel Forrest Gump was transformed into the movie version Forrest Gump. There will be a detailed comparison between the two characterisations of Forrest Gump, a look at the "minor" characters, different views on the "visual conversion" and a final decision whether the transformation itself can be called appropriate or not.

Gumption: Taking Bubba Gump from Movie to Restaurant Sep 02 2022 Written in a cinematic style, this book is about the creation, growth, and sale of the Bubba Gump Shrimp Company. The concept began when Paramount Pictures reached out to see if there was interest in creating a restaurant based on the movie Forrest Gump. It is also the personal story of the author's growth as a CEO and creator of restaurant concepts. A host of situations are described such as restaurant concept creation, high

stakes boardroom confrontations, and escaping corrupt officials in foreign lands. The narrative is partly an unvarnished peek behind the everyday scenes of restaurants, movie studios, and Wall Street. There is also an almost step-by-step recounting of how the Bubba Gump concept and others were created and operated. Lessons can be learned on unorthodox methods used in moving from traditional approaches to untried ways of doing business.

History Films, Women, and Freud's Uncanny Jul 20 2021 History films were a highly popular genre in the 1990s, as Hollywood looked back at significant and troubling episodes from World War II, the Cold War era, and the techno-war in the Persian Gulf. As filmmakers attempted to confront and manage intractable elements of the American past, such as the trauma of war and the legacy of racism, Susan Linville argues that a surprising casualty occurred—the erasure of relevant facets of contemporary women's history. In this book, Linville offers a sustained critique of the history film and its reduction of women to figures of ambivalence or absence. Historicizing and adapting Freud's concept of the uncanny and its relationship to the maternal body as the first home, she offers theoretically sophisticated readings of the films *Midnight Clear*, *Saving Private Ryan*, *The Thin Red Line*, *Nixon*, *Courage Under Fire*, *Lone Star*, and *Limbo*. She also demonstrates that the uncanny is not only a source of anxiety but also potentially a progressive force for eroding nostalgic ideals of nation and gender. Linville concludes with a close reading of a recent 9/11 documentary, showing how the patterns and motifs of 1990s history films informed it and what that means for our future.

The American Dream in "Forrest Gump" Nov 23 2021 Pre-University Paper from the year 2006 in the subject American Studies - Miscellaneous, grade: 2,0, Fachoberschule und Berufsoberschule Schwandorf, language: English, abstract: The original reason for choosing this topic in particular was in fact, the main idea of the American Dream, the movie primarily deals with. So, once more I was able to get in touch with the deep routed imagination and values which basically make up American society. One year ago, when I finished the Foreign Language School in Regensburg, I was really fascinated by having heard so much about, for example, lifestyle, religion and above all cultural details on the second largest continent of the world. Sometimes people think, living that unlimited American way of life would be the satisfaction of being on earth. At first glance, it might look like this, but it is not always true, especially if you have the chance to delve deeper inside and then you realize the United States of America is not just 50 sparkling stars on our planet, but the country is also a place where you have to fight for your life, for justice and acknowledgement. Before I start describing Forrest Gump and the way he sees everyone all around him, I have to say that I tried to highlight this work with a short interview with the actor Tom Hanks. Unfortunately, I noticed writing a letter to him which he would have had to answer, would have been too uncertain and furthermore it most probably would have taken too much time. Nevertheless, I did my very best to create a short interesting, expressive dissertation.
