The scribes of ancient Egypt devoted their lives to the writing of sacred stories. These technicians of the sacred were masters of hieroglyphic thinking, or heka--the proper words, in the proper sequence, with the proper intonation and the proper intent. Learning heka provided scribes with the power to invoke and create worlds through their words and thoughts. To the writer, heka is a magical way to create meaning from experience. Through heka we manifest new visions and new relationships to ourselves and to others. We can make new art filled with beauty and light. Revealing the spiritually transformative power of writing, the authors take us on a journey of self-discovery through the sacred sites of Egypt, from the Temple of Isis to the Great Pyramid of Giza. Through meditations and creative writing exercises exploring the powerful themes found in the hieroglyphic texts of ancient Egypt and the Egyptian Book of the Dead, they show how, through writing, we can live beyond the ordinary, give our dreams form, and discover who we really are and what our lives really mean. Sharing transformative and inspiring pieces written by those who've attended their Egyptian sacred tours, the authors reveal how writing your spiritual biography allows you to reconnect to the creativity and divine within, face your fears, offer gratitude for what you have, manifest new destinies, and recognize your life as part of the sacred story of Earth.

The Philistines and Aegean Migration at the End of the Late Bronze Age Oct 30 2019 In this study, Assaf Yasur-Landau examines the early history of the biblical Philistines who were among the 'Sea Peoples' who migrated from the Aegean area to the Levant during the early twelfth century BC. Creating an archaeological narrative of the migration of the Philistines, he combines an innovative theoretical framework on the archaeology of migration with new data from excavations in Greece, Turkey, Cyprus, Syria, Lebanon, and Israel and thereby reconstructs the social history of the Aegean migration to the southern Levant. The author follows the story of the migrants from the conditions that caused the Philistines to leave their Aegean homes, to their movement eastward along the sea and land routes, to their formation of a migrant society in Philistia and their interaction with local populations in the Levant. Based on the most up-to-date evidence, this book offers a new and fresh understanding of the arrival of the Philistines in the Levant.

The Lost Queen of Egypt Jul 20 2021 For professor of Egyptology Henry Markham, this would be the crowning glory of his career: an intact tomb of Nefertiti, the great royal wife of Akhenaten and the heretic pharaoh of eighteenth dynasty Egypt, whose bust of exquisite beauty resides in the Berlin Museum, which he had searched for the last ten years. He had an unspoken passion for her only excelled by his young assistant, Steven Sinclair, whose visions and dreams of her haunted him, much to the annoyance of Helen Carter, the freelance journalist on-site who, with her business partner Mike Mitcham, the digs photographer, saw Nefertiti as a rival for his affections. Thanks to a gambling debt, Mike finds himself the proud owner of a large luxury mobile home that four Mossad agents are interested in, along with Emil Brogini, who did a drug deal with two Mossad rogue agents since deceased. The arrival of Henry's estranged sister, Millicent, with her friend Jane Evesham, a gifted clairvoyant, does nothing to improve his temper, especially when Jane tells him they are in great danger. Can the danger come from four renegade Mossad agents or Emil Bratislav Brogini, Mr. Big in Cairo, into every racket going? Jane discovers that Helen has a latent gift of clairvoyance which, with their combined powers in a séance, sends them back to the eighteenth dynasty with Nefertiti, Akhenaten, and danger around every corner as they try to discover who is trying to kill them all using a large band of Libyan bandits. They survive ambushes, assassins' knives, and chariot chases, finally getting back to their own time with Nefertiti.

Close Encounters of the Invasive Kind Jan 26 2022 Before the breakthrough of postcolonial studies, British science-fiction authors already saw the opportunity to discuss political and ethical issues of imperialism by projecting human history and behavior onto the alien 'Other.' In this thesis, the case studies of 15 novels of alien-encounter science fiction illuminate the treatment of colonial and postcolonial concepts - such as colonialism, neo-colonialism, Empire, paternalism, hybridity, mimicry and science and technology - as a means of conquest and resistance. The analysis also shows that the Empire is still a vital background for British science fiction. Thesis. (Series: Anglistik / Amerikanistik; English / American Studies - Vol. 35)

Mysterious Lands Oct 23 2021 Mysterious Lands covers two kinds of encounters. First, encounters which actually occurred between Egypt and specific foreign lands, and second, those the Egyptians created by inventing imaginary lands. Some of the actual foreign lands are mysterious, in that we know of them only through Egyptian sources, both written and pictorial, and the actual locations of such lands remain unknown. These encounters led to reciprocal influences of varying intensity. The Egyptians also created imaginary lands (pseudo-geographic entities with distinctive inhabitants and cultures) in order to meet religious, intellectual and emotional needs. Scholars disagree, sometimes vehemently, about the locations and cultures of some important but geographically disputed actual lands. As for imaginary lands, they continually need to be re-explored as our understanding of Egyptian religion and literature deepens. Mysterious Lands provides a clear account of this subject and will be a stimulating read for scholars, students or the interested public.

THE EVOLUTION OF THE GOD ILLUSION Feb 01 2020 As one may have read Cicero in *The Nature Of The Gods*, ancient people were vivid observers of the sky and the celestial bodies because of their livelihood- they were mostly engaged in agriculture and animal husbandry. The cycles of nature and seasons were the most important factors affecting farming civilizations. The brilliant 'stars' Jupiter, Saturn, Venus and the zodiac were also objects of great interest. These heavenly bodies were regarded as deities even by learned philosophers. Cicero and Socrates had a field day demolishing these strongly held prevailing ideas. One popular god illusion of the West and Middle East began with patriarch Abraham who was an astronomer from Mesopotamia. He studied Jupiter avidly and could predict its behavior which he used it to his advantage in his migration to the Fertile Crescent and in his encounters with hostile inhabitants. Abraham had the delusion that Jupiter-Yahweh was a deity who could be depended to assist him in troubled times. The Yahweh Delusion was passed down from Abraham to son Isaac and grandson Jacob. Jacob's 12 sons migrated to Egypt, multiplied and eventually became slaves. Moses a pariah Egyptian prince became the rebel leader of the Hebrew slaves when he discovered his roots. At the opportune moment, c.1450 BCE, Venus erupted from unstable fast-spinning Red Giant Jupiter and shot into the inner solar system like a billiard ball along a highly elliptical orbit. It had several close encounters with Earth, Moon and Mars and created stunning phenomena or 'miracles' such as the much exaggerated Ten Plagues, parting of the Red Sea, the rain of manna, apparent stopping of the Earth's rotation, and even the destruction of the mighty army of Sennacherib near Jerusalem. Moses and his successors apparently knew and could predict more or less unusual celestial phenomena and attributed them to a tribal deity Yahweh who was connected with their deliverance and survival. Every successful prediction or expectation resulted in augmenting the god illusion. The god illusion evolved through stupendous sagas, cross fertilized by neighbors and reformers roughly from 1500 BCE to 500 BCE. However, the Hebrews had a confused idea of this savior deity and its feminine aspects, such as the Celestial Cow giving manna-milk. In the evolutionary process, Yahwist patriarchs literally wrote off the influential Goddess and made Yahweh a lone male god of Judaism and Christianity. The underlying motive developing this god illusion is Moses' and Israel's covetousness of the fertile Holy Land. Moses needed a justification to commit genocide, to rob, loot, destroy and drive out people inhabiting the land of milk and honey. The justification is a tribal god of Israelites who gives mandate to his chosen race to rob and steal the Promise Land from 'evil' worshippers of false gods! The underlying theory for this god illusion evolution hypothesis is based on Immanuel Velikovsky's bestseller of the 1950s, *Worlds in Collision*. This hypothesis met fierce opposition in academia and Establishment Science. The AAAS Symposium 1974 was convened to address the serious challenge. Here, the author produces abstracts from various experts in various disciplines of sciences and arts to counter objections to the underlying theory. The god illusion presented here is my own interpretation of the psychological impacts and aspects of these astounding celestial phenomena. I am using appropriate knowledge in several disciplines to support my thesis, such as radiation chemistry, upper atmosphere chemistry and behavioral science. My training as a stock analyst to read the underlying environment enables me to read in between the lines, to speculate and connect the gaps and dots together and present a satisfying version of the god illusion.

Object Worlds in Ancient Egypt Mar 16 2021 Egypt looms large in the Western imagination. Whether it is our attraction to pharaonic art, the pyramids or practices of mummification, Egypt's unique understanding of materiality speaks to us across space and time. Is it because the ancient Egyptians fetishized material objects that we find their culture captivating today? And what exactly do Egyptian remains tell us about biography, embodiment, memory, materiality, and the self? *Object Worlds in Ancient Egypt* takes New Kingdom Egypt (1539-1070 BC) as its starting point and considers how excavated objects reveal the complex ways that ancient Egyptians experienced their material world. From life to death, the material world instantiated, reflected and influenced social life and existence for ancient Egyptians. Thus, in Meskells unique approach to the materiality and sensuousness of subjects and

objects, we uncover the philosophical, spiritual and human meanings embedded in these cultural artefacts. Meskells book explores the fundamental existential questions that not only preoccupied ancient Egyptians, but continue to fascinate people today. What is the essence of persons and things? How might we understand the situated experiences of material life, the constitution of the object world and its shaping of human experience? How might objects successfully mediate between worlds? In the final analysis, Meskell moves forward through time and examines the consumption and appreciation of these Egyptian material objects in the contemporary world. Materiality is our physical engagement with the world, our medium for inserting ourselves into the fabric of that world and our way of constituting and shaping culture in an embodied and external sense. From that perspective it is very much the domain of anthropology and archaeology. Drawing on a wide range of objects, artefacts, and artwork, from Valley of the Kings through to Las Vegas, Meskell provides an elegant analysis of the aesthetics of ancient Egyptian material culture

Ancient Aliens Jun 30 2022 Ancient civilizations generated many innovations that are difficult to explain, such as the remarkable mathematical accuracy of the pyramids of Giza, the man-made fertile soil of the Amazon known as terra preta, and massive stone monuments too heavy to move in Peru and Lebanon, among other places. Given that modern science cannot explain these mysterious phenomena, one theory holds that ancient aliens were responsible for them. This volume examines the credibility of various paranormal hypotheses, giving readers the opportunity to explore the greatest puzzles of antiquity.

Police Encounters Aug 28 2019 Egypt came to govern Gaza as a result of a war, a failed effort to maintain Arab Palestine. Throughout the twenty years of its administration (1948–1967), Egyptian policing of Gaza concerned itself not only with crime and politics, but also with control of social and moral order. Through surveillance, interrogation, and a network of local informants, the police extended their reach across the public domain and into private life, seeing Palestinians as both security threats and vulnerable subjects who needed protection. Security practices produced suspicion and safety simultaneously. *Police Encounters* explores the paradox of Egyptian rule. Drawing on a rich and detailed archive of daily police records, the book describes an extensive security apparatus guided by intersecting concerns about national interest, social propriety, and everyday illegality. In pursuit of security, Egyptian policing established a relatively safe society, but also one that blocked independent political activity. The repressive aspects of the security society that developed in Gaza under Egyptian rule are beyond dispute. But repression does not tell the entire story about its impact on Gaza. Policing also provided opportunities for people to make claims of government, influence their neighbors, and protect their families.

Ancient Egyptian Imperialism Nov 11 2020 Offers a broad and unique look at Ancient Egypt during its long age of imperialism. Written for enthusiasts and scholars of pharaonic Egypt, as well as for those interested in comparative imperialism, this book provides a look at some of the most intriguing evidence for grand strategy, low-level insurgencies, back-room deals, and complex colonial dynamics that exists for the Bronze Age world. It explores the actions of a variety of Egypt's imperial governments from the dawn of the state until 1069 BCE as they endeavored to control fiercely independent mountain dwellers in Lebanon, urban populations in Canaan and Nubia, highly mobile Nilotic pastoralists, and predatory desert raiders. The book is especially valuable as it foregrounds the reactions of local populations and their active roles in shaping the trajectory of empire. With its emphasis on the experimental nature of imperialism and its attention to cross-cultural comparison and social history, this book offers a fresh perspective on a fascinating subject. Organized around central imperial themes—which are explored in depth at particular places and times in Egypt's history—Ancient Egyptian Imperialism covers: Trade Before Empire—Empire Before the State (c. 3500-2686); Settler Colonialism (c. 2400-2160); Military Occupation (c. 2055-1775); Creolization, Collaboration, Colonization (c. 1775-1295); Motivation, Intimidation, Enticement (c. 1550-1295); Organization and Infrastructure (c. 1458-1295); Outwitting the State (c. 1362-1332); Conversions and Contractions in Egypt's Northern Empire (c. 1295-1136); and Conversions and Contractions in Egypt's Southern Empire (c. 1550-1069). Offers a wider focus of Egypt's experimentation with empire than is covered by general Egyptologists. Draws analogies to tactics employed by imperial governments and by dominated peoples in a variety of historically documented empires, both old world and new. Answers questions such as “how often and to what

degree did imperial blueprints undergo revisions?" Ancient Egyptian Imperialism is an excellent text for students and scholars of history, comparative history, and ancient history, as well for those interested in political science, anthropology, and the Biblical World.

Down the Nile Jul 28 2019 Rosemary Mahoney was determined to take a solo trip down the Egyptian Nile in a small boat, even though civil unrest and vexing local traditions conspired to create obstacles every step of the way. Starting off in the south, she gained the unlikely sympathy and respect of a Muslim sailor, who provided her with both a seven-foot skiff and a window into the culturally and materially impoverished lives of rural Egyptians. Egyptian women don't row on the Nile, and tourists aren't allowed to for safety's sake. Mahoney endures extreme heat during the day, and a terror of crocodiles while alone in her boat at night. Whether she's confronting deeply held beliefs about non-Muslim women, finding connections to past chroniclers of the Nile, or coming to the dramatic realization that fear can engender unwarranted violence, Rosemary Mahoney's informed curiosity about the world, her glorious prose, and her wit never fail to captivate.

Voyages of the Pyramid Builders Sep 09 2020 Is it a mere coincidence that pyramids are found throughout our globe? Did cultures ranging across vast spaces in geography and time, such as the ancient Egyptians; early Buddhists; the Maya, Inca, Toltec, and Aztec civilizations of the Americas; the Celts of the British Isles; and even the Mississippi Indians of pre-Columbus Illinois, simply dream the same dreams and envision the same structures? Robert M. Schoch—one of the world's preeminent geologists in recasting the date of the building of the Great Sphinx—believes otherwise. In this dramatic and meticulously reasoned book, Schoch, like anthropologist Thor Heyerdahl in his classic *Kon-Tiki*, argues that ancient cultures traveled great distances by sea. Indeed, he believes that primeval sailors traveled from the Eastern continent, primarily Southeast Asia, and spread the idea of pyramids across the globe, particularly to the New World of the Americas where they abounded until the days of the Conquistadors.

Ancient Egypt in Africa Aug 21 2021 The discipline of Egyptology has been criticised for being too insular, with little awareness of the development of archaeologies elsewhere. It has remained theoretically underdeveloped. For example the role of Ancient Egypt within Africa has rarely been considered jointly by Egyptologists and Africanists. Egypt's own view of itself has been neglected; views of it in the ancient past, in more recent times and today have remained underexposed. *Encounters with Ancient Egypt* is a series of eight books which addresses these issues. The books interrelate, inform and illuminate one another and will appeal to a wide market including academics, students and the general public interested in Archaeology, Egyptology, Anthropology, Architecture, Design and History. Geographically, Egypt is clearly on the African continent, yet Ancient Egypt is routinely regarded as a non-African cultural form. The significance of Ancient Egypt for the rest of Africa is a hotly debated issue with complex ramifications. This book considers how Ancient Egypt was dislocated from Africa, drawing on a wide range of sources. It examines key issues such as the evidence for actual contacts between Egypt and other early African cultures, and how influential, or not, Egypt was on them. Some scholars argue that to its north Egypt's influence on Mediterranean civilization was downplayed by western scholarship. Further afield, on the African continent perceptions of Ancient Egypt were coloured by biblical sources, emphasizing the persecution of the Israelites. An extensive selection of fresh insights are provided, several focusing on cultural interactions between Egypt and Nubia

from 1000 BCE to 500 CE, developing a nuanced picture of these interactions and describing the limitations of an 'Egyptological' approach to them.

Into His Presence, Volume 2 Jan 02 2020 The God of the Bible is not a concept to be studied but a divine person each of us can and should encounter personally. Into His Presence Volume 2 uses the documented encounters of the prophets of old with the God of History as tools to help you understand the character of God as a person. In this book, you will see the God of the Bible as a divine person encountered by the prophets and the writers of the Old Testament. The approach to the study of the Bible presented in this book will completely change how you read the Bible and how you perceive the divine author of the Bible. In this book, you will learn how many historically documented conversations each of the great prophets had with God and understand that Jehovah moved with purpose in each of His encounters with His prophets. Your understanding of the character of God will be enriched as you see Him through the eyes of Elijah, Jehovah's defender against religious and political leaders who waged an aggressive campaign against the worship of Jehovah. You will be enlightened as you examine the person of Jehovah through the eyes of Isaiah and understand why he saw Jehovah as the only Savior and the coming Messiah. You will be amazed by the number of conversations Jeremiah had with God and see how his encounters with Jehovah demonstrate that encountering Jehovah can completely transform your views about His person. You will walk with Daniel, Zechariah, Esther and Nehemiah as their relationships with Jehovah turn them into His ambassadors in their own world. Through the enumerated experiences of each of the prophets, you will come to understand the consistent character attributes of God as a person over the course of history. You will conclude that God is a divine person with whom you can also have an intimate relationship. As you read this book, you will feel the God of the Bible personally calling you into His presence.

Seeking a City with Foundations Apr 16 2021 More than half the people in the world live in cities, including a growing number of megacities with populations exceeding ten million people. This trend means that an understanding of urbanization must be an urgent priority for Christian theology and mission across the globe. This updated edition of Seeking a City with Foundations, with an additional chapter, explores Christian responses to the city, ranging from rejecting the urban as evil, to embracing it as being central to God's redemptive purposes. Drawing from a wide range of disciplines, including history, social science, urban planning, and the history of art, readers are given a detailed text which confronts the challenges that contemporary urbanization presents to world Christianity. Looking at urbanism as a theme throughout Scripture, culminating with the great vision of the New Jerusalem, David Smith explains that God's own future is revealed as urban, highlighting the need to identify modern-day idols as we share the gospel in cities and acknowledge the impact of global economic forces. The book also explores the causes of what has been called the divided city and traces the urban theme through the Bible to present an alternative vision of the urban future – a future in which the injustices in ever-growing slums and a crisis of meaning among the privileged might be overcome through the power of the reconciling message of the cross. This timely book proposes a way forward for urban mission, highlighting that transformation of our cities must be the focal point of Christian mission and hope.

The Close Encounters Man Oct 11 2020 The wildly entertaining and eye-opening biography of J. Allen Hynek, the astronomer who invented the concept of "Close Encounters" with alien life, inspired Steven Spielberg's blockbuster classic science fiction epic film and is the subject of History Channel's Project Blue Book, and made an entire nation want to believe in UFOs. In June 1947, private pilot Kenneth Arnold looked out his cockpit window and saw a group of nine silvery crescents weaving between the peaks of the Cascade Mountains at an estimated 1,200 miles an hour. The media, the military, and the scientific community—led by J. Allen Hynek, an astronomer hired by the Air Force—debunked this and many other Unidentified Flying Object sightings reported across the country. But after years of denials, Hynek made a shocking pronouncement: UFOs are real. Thirty years after his death, Hynek's agonizing transformation from skeptic to true believer remains one of the great misunderstood stories of science. In this definitive biography, Mark O'Connell reveals for the first time how Hynek's work both as a celebrated astronomer and as the U. S. Air Force's go-to UFO expert for nearly twenty years stretched the boundaries of modern science, laid the groundwork for acceptance of the possibility of UFOs, and was the basis of the hit film Close Encounters of the Third Kind. With unprecedented access to Hynek's personal and professional files, O'Connell smashes conventional wisdom to reveal the intriguing man and scientist beneath the legend. Tracing

Hynek's career, O'Connell examines Hynek's often-ignored work as a professional astronomer to create a complete portrait of a groundbreaking enthusiast who became an American cult icon and transformed the way we see our world and our universe.

Coming Out of Egypt May 30 2022 Coming Out of Egypt is an exodus out of idolatry--the idolatry of ancient Egypt and the idolatry that permeates the church today. Its goal is to make the exodus come alive for the reader--not to just read about the exodus but to experience the exodus, not to just read about the Passover but to experience the Passover, to catapult the reader back through time like a time traveler entering a time portal. The goal of Coming Out of Egypt is to experience redemption, not just to read about redemption, to experience redemption from Pharaoh at the Reed Sea, and witness Yeshua's resurrection.

Aliens in Ancient Egypt Nov 04 2022 The alien influences behind the rise and fall of Egypt's Golden Age • Explains how Akhenaten was the last pharaoh entrusted with the sacred and ancient alien knowledge of stargates, free energy, and antigravity technologies • Reveals how the Brotherhood of the Snake, a secret society of reptilian aliens, sought to destroy Akhenaten and suppress the sacred knowledge of the pharaohs • Explores the original purpose of the pyramids--to transmit energy to expand consciousness--and how they were decommissioned after the Great Flood The sophisticated civilization of ancient Egypt arose seemingly overnight, complete with advanced levels of art, agriculture, astronomy, and physics. Then, with the death of Pharaoh Akhenaten, much of this higher knowledge was lost--or suppressed. But evidence of this former Golden Age, the alien visitors behind its rise, and those behind its decline still exists--some of it in plain sight. Examining the purposefully obscured reign of Akhenaten and Nefertiti, Xaviant Haze explains how they represent the last dynasty with access to the sacred knowledge of stargates, free energy, and antigravity technologies, knowledge handed down from an advanced interstellar race in the remote past. He reveals how the reptilian race known as the Shemsu Hor infiltrated the Egyptian priesthood and banking systems and formed the Brotherhood of the Snake--a secret society set on destroying Akhenaten's flourishing kingdom and suppressing the sacred knowledge of the pharaohs. Haze examines the evidence of aliens in ancient Egypt, such as the reptilian beings depicted in the Temple of Hathor and Thutmose III's alien encounter. He shows how Akhenaten and his family are always portrayed with elongated skulls and explores the connection between ancient aliens and Mars, including the Martian materials used in Egyptian monuments. He explains the original purpose of the pyramids--to transmit uplifting energy throughout the planet to help expand consciousness--and explores how they were decommissioned after the Great Flood of prehistory. He reveals how the original builders of the pyramids foresaw humanity's fall from the Golden Age and strategically encoded these magnificent structures to wake humanity from the depths of the Dark Ages.

Ancient Perspectives on Egypt Aug 01 2022 The allure of Egypt is not exclusive to the modern world. Egypt also held a fascination and attraction for people of the past. In this book, academics from a wide range of disciplines assess the significance of Egypt within the settings of its past. The chronological span is from later prehistory, through to the earliest literate eras of interaction with Mesopotamia and the Levant, the Aegean, Greece and Rome. Ancient Perspectives on Egypt includes both archaeological and documented evidence, which ranges from the earliest writing attested in Egypt and Mesopotamia in the late fourth millennium BC, to graffiti from Abydos that demonstrate pilgrimages from all over the Mediterranean world, to the views of Roman poets on the nature of Egypt. This book presents, for the first time in a single volume, a multi-faceted but coherent collection of images of Egypt from, and of, the past.

Close Encounters Jun 26 2019 Although it is primarily a book about God, this unique volume is more specifically about the ways in which Jews have spoken of and written about God throughout four millennia of history. By looking at the Bible, rabbinic literature, the liturgy, and the work of ancient and modern Jewish theologians, best-selling author and respected rabbi Ronald Isaacs presents the ways in which Jewish tradition responds to and grapples with questions about God, including God's nature, attributes, and plan for the universe. Topics explored include: basic conceptions of God, early classical proofs of God's existence, theories of revelation, writing and pronouncing God's name, prayer, God in Jewish mysticism, Jewish theology since the Holocaust, how to respond when children ask about God, and how to develop a personal theology. For many people, the search for personal growth and spiritual fulfillment has raised numerous questions of faith. A introduction to the broad spectrum of issues about God, Close Encounters: Jewish Views about God will provide intellectual sustenance and ideas for further exploration for those readers seeking to strengthen their spiritual identities.

European Evangelicals in Egypt (1900-1956) Apr 28 2022 In *European Evangelicals in Egypt (1900-1956)* Samir Boulos investigates cultural exchange processes between European missionaries and Egyptian society in the first half of the twentieth century.

American Evangelicals in Egypt Sep 29 2019 In 1854, American Presbyterian missionaries arrived in Egypt as part of a larger Anglo-American Protestant movement aiming for worldwide evangelization. Protected by British imperial power, and later by mounting American global influence, their enterprise flourished during the next century. *American Evangelicals in Egypt* follows the ongoing and often unexpected transformations initiated by missionary activities between the mid-nineteenth century and 1967--when the Six-Day Arab-Israeli War uprooted

the Americans in Egypt. Heather Sharkey uses Arabic and English sources to shed light on the many facets of missionary encounters with Egyptians. These occurred through institutions, such as schools and hospitals, and through literacy programs and rural development projects that anticipated later efforts of NGOs. To Egyptian Muslims and Coptic Christians, missionaries presented new models for civic participation and for women's roles in collective worship and community life. At the same time, missionary efforts to convert Muslims and reform Copts stimulated new forms of Egyptian social activism and prompted nationalists to enact laws restricting missionary activities. Faced by Islamic strictures and customs regarding apostasy and conversion, and by expectations regarding the proper structure of Christian-Muslim relations, missionaries in Egypt set off debates about religious liberty that reverberate even today. Ultimately, the missionary experience in Egypt led to reconsiderations of mission policy and evangelism in ways that had long-term repercussions for the culture of American Protestantism.

Consuming Ancient Egypt Nov 23 2021 Consuming Ancient Egypt examines the influence of Ancient Egypt on the everyday lives of contemporary people, of all ages, throughout the world. It looks at the Egypt tourist sees, Egypt in film and Egypt as the inspiration for opera. It asks why so many books are published each year on Egyptological subjects at all levels, from the austere academic to the riotous celebrations of Egypt as a land of mystery, enchantment and fantasy. It then considers the ways in which Ancient Egypt interacts with the living world, in architecture, museum going, the acquisition of souvenirs and reproductions, design, and the perpetual appeal of the mummy. The significance of Egypt as an adjunct to (and frequently the subject of) marketing in the consumer society is examined. It reveals much about Egypt's immemorial appeal and the psychology of those who succumb to its magic.

Armageddon, Close Encounters in the Fifth Kind Mar 28 2022 ¿Cómo cambiaría nuestra forma de ver el mundo si nos planteásemos que todos los estamentos de la sociedad serán pronto abolidos? ¿Veríamos la vida de la misma forma si diéramos lugar a la idea de que nuestra historia ha estado ligada a influencias que no son de este mundo? “Armagedón, Encuentros Cercanos en la Quinta Fase” es una obra que no pasará desapercibida, mucho menos delante de los acontecimientos que están ocurriendo, aunque el mundo no esté al tanto de ellos -porque está siendo distraído. Hablamos de un cambio a escala planetaria en la conciencia humana y del sistema de vida que tenemos, el destape de grandes y sumamente relevantes mentiras que han mantenido engañado al hombre del siglo XXI, y así mismo el inicio de una existencia libre, sólo posible tras una guerra sin precedentes. Nuestro mundo está a punto de tener los cambios más significativos de toda la historia humana, desde que se tiene constancia de ella. La vida extraterrestre es una realidad, tal como lo es el hecho de que sabemos toda la verdad sobre la vida fuera de la Tierra y los misterios del universo en esta década. El Nuevo Orden Mundial, del cual pocos han oído hablar -aún a estas alturas y con el terreno ya ganado por esos psicópatas en todos los medios globales- no conseguirá sus fines de eliminación poblacional y control totalitario, aunque conseguirán por un periodo muy breve de tiempo muchas de sus agendas. Toda la humanidad está al borde de un cambio de paradigma, no sin antes presenciar la experiencia de la vida extraterrestre inteligente, un mundo dominado por las corporaciones, dueños de la banca y de los oleoductos. Entonces el cambio será radical y no dejará lugar a dudas a más cuestionamientos, suposiciones o teorías sobre el origen del hombre y de la vida fuera de nuestro orbe azul; de igual modo que no habrá más medias tintas sobre el conocimiento y realidad de la existencia de Jesucristo, no como una religión sino como una realidad. Esta será una verdad inamovible que no está sujeta -ni nunca lo ha estado- a religiones, ni a dogmas, ni a espiritualismo, ni a teorías conspiratorias, ni a ciencia ficción, ni a fábulas, ni a cualquier otra creencia abstracta, sino al modernismo de esta centuria y a la revolución mundial que hoy nos atañe. Parece difícil reconciliar la imagen de aquel carpintero que fue clavado en una cruz junto con la ciencia, pero recordemos que los estamentos religiosos que conocemos son relativamente recientes y no fueron impuestos por Jesucristo. Sus enseñanzas aparecieron sobre el 26 y/o el 33 d.C. aprox., en cambio las posteriores fueron ciertamente tardías: Catolicismo (325 d.C.), Islam (600 d.C.), Protestantismo (inicios del siglo XIV) Mormonismo (mediados de 1800 d.C.), Testigos de Jehová (1870), etc. En otras palabras, las enseñanzas de Jesús no estuvieron sujetas a religiones “cristianas”, ya que estas se crearon en nombre de él siglos después, mayormente con fines lucrativos o de control de masas. Tengamos presente, antes que nada, que todas las profecías, que han venido de parte de Dios, hasta su momento se han cumplido y nada sugiere que las que aún han de cumplirse dejen de tener lugar; mucho menos cuando estamos viviendo las concisas advertencias que hicieron hombres modelo en tiempos antiguos, y además con lujo de detalles. Así que tenemos que

citar a hombres de otrora para ver cómo se han dado los hechos que anunciaron y qué otros acontecimientos han de tener lugar en nuestra década y en los años que precederán nuestra era. Ciertamente cada vez podemos ver más cerca un final de esta edad y el inicio de una nueva historia para la civilización humana. Un cambio que se palpa y comenta en todos los círculos sociales y culturales. Este cambio viene acompañado de mucha incertidumbre, dudas sobre cómo será ese desenlace final y qué ocurrirá después de ello. La historia de nuestra raza se ha visto constantemente salpicada por grandes extinciones, donde nuestros antecesores han sido diezmados, eliminados tácitamente por sucesos catastróficos que han dado origen a nuevos eones. Así se ha visto en lejanas edades desde la prehistoria y así se ve hoy, muy próximos a experimentar eventos nunca antes vistos en ninguna etapa anterior de nuestro devenir como civilización. Como hijos de la Tierra hemos de conocer los hechos que han modelado nuestro presente y que han colocado a nuestra raza en el borde del colapso y de la aparente auto-extinción. Tenemos que ser conscientes de que tal como la arqueología nos sirve para revelar los acontecimientos de antaño, también han existido desde otrora métodos para vaticinar el tiempo por venir, y éstos han marcado hechos memorables en el registro histórico. Nosotros los llamamos "profecías", y si bien, desde tiempos de la Grecia clásica los helenos consultaban el polémico oráculo de Delfos, el que se cree era el más preciso de todos, aunque se especuló que alguna vez se equivocó (más bien diríamos que han dado origen a nuevos consultores debían saber).

Imhotep Today Apr 04 2020 This book presents and analyses the results of the use and adaptation of ancient Egyptian architecture in modern times. It traces the use of ancient Egyptian motifs and constructions across the world, from Australia, the Americas and Southern Africa to Western Europe. It also inquires into the cultural, economic and social contexts of this practice. Imhotep Today is exceptional not only in its global coverage, but in its analyses of thorny questions such as: what was it about Ancient Egypt that inspired such Egyptianizing monuments, and was it just one idea, or several different ones which formed the basis of such activities? The book also asks why only certain images, such as obelisks and sphinxes, were incorporated within the movement. The contributors explore how these 'monuments' fitted into the local architecture of the time and, in this context, they investigate whether 'Egyptianizing architecture' is an ongoing movement and, if so, how it differs from earlier, similar activities.

Female Pioneers from Ancient Egypt and the Middle East Feb 12 2021 This book explores the contributions of Eastern female pioneers in science, politics and arts from Ancient Egypt to modern times, and discusses the possible psychological and social impact of this knowledge on today's gender role in Eastern and Western Societies. Based on psychological studies on social learning, the book argues that profound knowledge of the historical contributions of Eastern female pioneers in science, politics and arts can improve today's gender roles in Middle Eastern countries and inspire young women living in Western Societies with Eastern migration background. Spanning disciplines such as Natural sciences, Neuroscience, Psychology, Sociology, Islamic Theology, History and Arts, and including contributions from diverse geographical regions across the world, this book provides an elaborate review of the gender role of women in Ancient Egypt and the Middle East, outlining their prominence and influence and discusses the possible psychological and social impact of this knowledge on today's gender roles.

Close Encounters with God Sep 02 2022 Close Encounters with God presents a study of multiple close encounters with Yahweh, the name of God in Hebrew Scripture. These encounters enable us to have a clearer portrayal of the self-revealed God, one who is different from the conceptualized deity envisioned through such means as transcendental meditation, vision quest, or mystical rapture. By rediscovering the true personality of the self-revealed God, we will be able to understand the great mysteries of the universe that have baffled mankind for millennia. Why do the blameless suffer? Why does evil persist in the world? Why do the wicked prosper? Must the chosen people suffer the destiny of martyrdom? And why should Yahweh remain the hidden God?
