**Historical Guide to Children's Theatre in America** Nov 12 2020

[A] long overdue retrospective of the major playwrights, theatre companies, and professional organizations which have sustained the children's theatre movement in this country. . . . Part One of McCaslin's book is a historical overview of the significant trends

and changes which have characterized children's theatre and influenced the art and craft of playwriting. . . . Part Two, the bulk of McCaslin's guide, contains an alphabetical listing of over 350 educational, community, and commercial theatre companies as well as national and regional organizations--some no longer operating--which have made children's theatre the main thrust of their work. . . . Several appendixes augment the usefulness of this altogether practical and meticulously researched reference book. Children's Literature Association Quarterly An authoritative reference

for children's theater professionals, educators, and enthusiasts, McCaslin's historical guide will be frequently used in public, college, and university libraries. ARBA Those who are associated with children's theater in any way will want to study this book thoroughly and keep it as a handy reference guide. . . . Thanks to Nellie McCaslin, the history of children's theater can take its rightful place beside all other theater history. Applause Professor McCaslin, a leading authority in the field, examines the history of the companies and organizations that struggled to bring live theatrical entertainment to children from 1903, beginning with a theater founded by a settlement house on New York's Lower East Side, to the present day. She begins with an overview of children's theatre history. The main text consists of alphabetically arranged profiles of both early and current producing companies and associations that have made a significant contribution to the field. Appendixes to the volume supply a Personalities

Roster, a Geographical Index, and a Chronology of Events significant in the history of the children's theatre movement.

*Drama and Education* Jul 09 2020 Drama and Education provides a practical, comprehensive guide to drama as a tool for teaching and learning. It is among the first practical drama and performance textbooks that address brain-based, neuroscientific research, making the argument that creativity is necessary in our lives, that embodied learning is natural and essential, and that contextual learning helps us find our place in society in relationship to other peoples and cultures. As well as a historical and theoretical overview of the field, it provides rationale and techniques for several specific methodologies: linear drama, process-oriented drama, drama for social justice, and performance art. Each approach is supplemented with sample lesson plans, activities, ideas for differentiation, and extensive bibliographies. The topics are discussed from

five key angles: • Historical and theoretical foundations • Curricular applications • Practical toolkits for a range of classrooms and learning environments • Different strategies for lesson plans • Extension options for longer workshops. Alongside these core methods, the integration of other innovative forms—from performance art to Theatre of the Oppressed—into drama-based learning is explored, as well as the pragmatic concerns such as assessment, planning, and advocacy for arts learning and arts education partnerships. Drama and Education is the comprehensive textbook for teachers and students on Applied Theatre and Theatre and Education courses.

**The Broadway Song Companion** Nov 24 2021

The Broadway Song Companion is the first complete guide and access point to the vast literature of the Broadway musical for the solo

performer. Designed with the working actor in mind, the volume lists every song from over 210 Broadway shows, giving the name of the character(s) who sing(s) the song, its exact vocal range, and categorizing each by song style (uptempo, narrative ballad, swing ballad, moderate character piece, etc.). A number of indexes to the volume list titles of songs, first lines, composer's and lyricist's names, and each song by voice type. For instance, a soprano looking for a ballad to sing will find every song in that category in the index. All solos, duets, and trios are indexed in this manner, with quartets and larger ensembles listed by voice type. Furthermore, the instant breakdowns (how many lead characters, who sings what song, and the range requirements of each character) will be a valuable resource to directors and producers.

*A Cultural History of Theatre in Antiquity* Sep 10 2020 Theatre was at the very heart of culture in Graeco-Roman civilizations and its influence

permeated across social and class boundaries. The theatrical genres of tragedy, comedy, satyr play, mime and pantomime operate in Antiquity alongside the conception of theatre as both an entertainment for the masses and a vehicle for intellectual, political and artistic expression. Drawing together contributions from scholars in Classics and Theatre Studies, this volume uniquely examines the Greek and Roman cultural spheres in conjunction with one another rather than in isolation. Each chapter takes a different theme as its focus: institutional frameworks; social functions; sexuality and gender; the environment of theatre; circulation; interpretations; communities of production; repertoire and genres; technologies of performance; and knowledge transmission. [The Columbia Guide to Contemporary African American Fiction](#) Jan 03 2020 In both the literal and metaphorical senses, it seemed as if 1970s America was running out of gas. The decade not only witnessed long lines at gas stations but a

citizenry that had grown weary and disillusioned. High unemployment, runaway inflation, and the energy crisis, caused in part by U.S. dependence on Arab oil, characterized an increasingly bleak economic situation. As Edward D. Berkowitz demonstrates, the end of the postwar economic boom, Watergate, and defeat in Vietnam led to an unraveling of the national consensus. During the decade, ideas about the United States, how it should be governed, and how its economy should be managed changed dramatically. Berkowitz argues that the postwar faith in sweeping social programs and a global U.S. mission was replaced by a more skeptical attitude about government's ability to positively affect society. From Woody Allen to Watergate, from the decline of the steel industry to the rise of Bill Gates, and from Saturday Night Fever to the Sunday morning fervor of evangelical preachers, Berkowitz captures the history, tone, and spirit of the seventies. He explores the decade's major

political events and movements, including the rise and fall of détente, congressional reform, changes in healthcare policies, and the hostage crisis in Iran. The seventies also gave birth to several social movements and the "rights revolution," in which women, gays and lesbians, and people with disabilities all successfully fought for greater legal and social recognition. At the same time, reaction to these social movements as well as the issue of abortion introduced a new facet into American political life-the rise of powerful, politically conservative religious organizations and activists. Berkowitz also considers important shifts in American popular culture, recounting the creative renaissance in American film as well as the birth of the Hollywood blockbuster. He discusses how television programs such as All in the Family and Charlie's Angels offered Americans both a reflection of and an escape from the problems gripping the country.

**Musical Theater** Oct 31 2019 This unique

historical survey illustrates the interaction of multiple artistic and dramatic considerations with an overview of the development of numerous popular musical theater genres. This introduction provides more than a history of musical theater, it studies the music within the shows to provide an understanding of the contributions of musical theater composers as clearly as the artistry of musical theater lyricists and librettists. The familiarity of the musical helps readers understand how music functions in a song and a show, while giving them the vocabulary to discuss their perceptions. The guide reviews the antecedents to the genre of "musical theater," the musical stage in the 19th century, divergent paths in the twentieth century, synthesis of style and substance, new partnerships, new faces of the 40s, 50s 60s and 70s, and changes of approach in the 1980s and 90s. For fans of music and musical theater.

**Rob Drummond Plays with Participation** Dec 02 2019 An innovative and unique play collection that examines the relationship between writer, audience and performer and their combined incorporation into the theatrical event. Written (and occasionally performed) by Rob Drummond in collaboration with director David Overend, this play collection is a record of a long-term artistic partnership. From the award-winning magic of *Bullet Catch* (the Arches, 2012), to the audience votes *The Majority* (Royal National Theatre, 2017), these play texts open up a space for improvisation and participation, and a range of responses and reactions from the audience. The collection includes four previously unpublished scripts along with up-to-date versions of their most

successful productions. With introductory essays and in-text commentary by both the writer and director, this is a valuable resource for practitioners, students, and scholars of contemporary British and Scottish theatre.

*Performing Communities* Apr 17 2021

Performing Communities is an inquiry into ensemble theater of inner-city Los Angeles, small-town northern California, African-American South, multicultural southern Texas, low-income central Appalachia, economically struggling South Bronx New York and cross-continental Native America. This compendium of critical writing about the role these theaters play in building community shows how these artist groups are not only affected by but forged by working in and with their communities over time. Grassroot ensemble theater is discovered to be neither alternative nor marginalized, but vanguard, a natural evolution of the movement that propelled regional theater "away from the commercial restraints of New York and toward a

theater expressive of the rich diversity of American culture." Robert H. Leonard is Professor of Theatre Arts at Virginia Tech and former artistic director of the Road Company, an acclaimed ensemble theater that produced two dozen original plays reflecting the issues of Central Appalachia. Ann Kilkelly is Professor of Theater Arts and Women's Studies at Virginia Tech and a nationally recognized scholar and performer who created the Diversity Training Laboratory that uses performance techniques to examine diversity issues. Linda Frye Burnham is co-director of Art in the Public Interest and the Community Arts Network. She founded High Performance magazine and is editor, with Steven Durland, of The Citizen Artist: 20 Years of Art in the Public Arena. Jan Cohen-Cruz is Director of Theatre Studies in the NYU Tisch School of the Arts. She is author of Local Acts: Community-based Performance In The United States (Rutgers University Press 2005).

The Rainbow of Desire Jun 19 2021 Rainbow of Desire is a handbook of exercises with a

difference. It is Augusto Boal's bold and brilliant statement about the therapeutic ability of theatre to liberate individuals and change lives. Now translated into English and comprehensively updated from the French, Rainbow of Desire sets out the techniques which help us `see' for the first time the oppressions we have internalised. Boal, a Brazilian theatre director, writer and politician, has been confronting oppression in various forms for over thirty years. His belief that theatre is a means to create the future has inspired hundreds of groups all over the world to use his techniques in a multitude of settings. This, his latest work, includes such exercises as: \* The Cops in the Head and their anti-bodies \* The screen image \* The image of the future we are afraid of \* Image and counter-image ...and many more. Rainbow of Desire will make fascinating reading for those already familiar with Boal's work and is also completely accessible to anyone new to Theatre of the Oppressed techniques.

*Applied Theatre: Resettlement* Aug 22 2021 The book offers a compelling combination of analysis and detailed description of aesthetic projects with young refugee arrivals in Australia. In it the authors present a framework that contextualises the intersections of refugee studies, resilience and trauma, and theatre and arts-based practice, setting out a context for understanding and valuing the complexity of drama in this growing area of applied theatre. *Applied Theatre: Resettlement* includes rich analysis of three aesthetic case studies in Primary, Secondary and Further Education contexts with young refugees. The case studies provide a unique insight into the different age specific needs of newly arrived young people. The authors detail how each group and educational context shaped diverse drama and aesthetic responses: the Primary school case study uses process drama as a method to enhance language acquisition and develop intercultural literacy; the Secondary school project focuses on Forum Theatre and

peer teaching with young people as a means of enhancing language confidence and creating opportunities for cultural competency in the school community, and the further education case study explores work with unaccompanied minors and employs integrated multi art forms (poetry, art, drama, digital arts, clay sculptures and voice work) to increase confidence in language acquisition and explore different forms of expression and communication about the transition process. Through its careful framing of practice to speak to concerns of power, process, representation and ethics, the authors ensure the studies have an international relevance beyond their immediate context. *Drama, Refugees and Resilience* contributes to new professional knowledge building in the fields of applied theatre and refugee studies about the efficacy of drama practice in enhancing language acquisition, cultural settlement and pedagogy with newly arrived refugee young people.
