Perspectives on Grammaticalization Dec 02 2019 This is the second of two volumes deriving from papers presented at the Nineteenth Annual UWM linguistics Symposium held in Milwaukee in 1990. It focuses on the evolution of grammatical form and meaning from lexical material, which has reinvigorated historical analysis and theory and led to advances in the understanding of the relation between diachrony and universals.

The richness and potential of some of the leading approaches to grammaticalization are here illustrated in thirteen selected papers.

Handbook of Ethnic Conflict Apr 05 2020 Although group conflict is hardly new, the last decade has seen a proliferation of conflicts engaging intrastate ethnic groups. It is estimated that two-thirds of violent conflicts being fought each year in every part of the globe including North America are ethnic conflicts. Unlike traditional warfare, civilians comprise more than 80 percent of the casualties, and the economic and psychological impact on survivors is often so devastating that some experts believe that ethnic conflict is the most destabilizing force in the post-Cold War world. Although these conflicts also have political, economic, and other causes, the purpose of this volume is to develop a psychological understanding of ethnic warfare. More specifically, *Handbook of Ethnopolitical Conflict* explores the function of ethnic, religious, and national identities in intergroup conflict. In addition, it features recommendations for policy makers with the intention to reduce or ameliorate the occurrences and consequences of these conflicts worldwide.

Encyclopedia of Linguistics Oct 12 2020 Utilizing a historical and international approach, this valuable two-volume resource makes even

the more complex linguistic issues understandable for the non-specialized reader. Containing over 500 alphabetically arranged entries and an expansive glossary by a team of international scholars, the *Encyclopedia of Linguistics* explores the varied perspectives, figures, and methodologies that make up the field.

Thamizh Is Not Just A Language Aug 29 2019 In general histories of India, the part of the country with which we are concerned figures only in a small way. Vincent Smith rightly observed 'most historians of ancient India have written as if the South did not exist' and explained this neglect of the South in two ways. 'The historian of India,' he said, 'is bound by the nature of things to direct his attention to the North, and is able to give only a secondary place to the story of Deccan Plateau and the far south. 'South India and northern Ceylone are the one of the oldest inhabited regions of the world and its prehistoric archaeology and contacts with neighbouring lands, so far as traceable, constitutes an important chapter in the history of world's civilizations. The Marathas of the western Deccan are the southern most of indo Aryan speaking people and all the country to the east and south of them speaks languages which fall into a single group with Thamizh as the source which is the Classical living language & exists the ethnicity called Thamizhan, with its own individuality and unique, unconquerable potency in both Politics, culture, sport, worship, art, agriculture and valour. They had a wide spread life in now called India with Himalayas as their border in North and Kanyakumari in South. This is what all about in this book, the valour, courage and valiance of kings and warriors who existed in Thamizh ethnics' right from the ancient era. Shown with available referrals from the Thamizh epics and literatures from Sangam era translated in English.

Community, Gender and Violence Mar 17 2021 "In its early phase, "Subaltern Studies" dealt extensively with the issue of community and violence in the context of peasant uprisings. Once the problems of peasant involvement in the modern politics of the nation were subjected to the same critical scrutiny, complexities in that relationship began to emerge. A new dimension was introduced when gender and national politics came to be taken seriously and in the present volume the whole range of new issues raised by the relations between community, gender and violence are addressed. The question of women and the nation, especially among minorities, features strongly in this work. Qadri Ismail examines the claims of Tamil nationalism in Sri Lanka from the standpoint of the Southern Tamil woman; Aamir Mufti looks not at the familiar gendered figure of the nation as mother but, from the standpoint of the rejected minority, at the brutalized prostitute; while Tejaswini Niranjana writes on the "new woman" in contemporary Indian cinema. Further chapters look at women and minorities in the context of the law: Flavia Agnes examines the

colonial and nationalist histories of the Hindu law of marriage and women's property, Nivedita Menon critically reviews the Indian debate over the universal civil code, and David Scott discusses, with an eye to Sri Lanka, the concept of minority rights within modern theories of citizenship. The issue of violence is taken up by Satish Deshpande in his study of the imagined space within which the new Hindu Right seeks to assert its dominance, and by Pradeep Jeganathan in his exploration of violence in the cultivation of masculinity. In her conclusion, Gayatri Chakravorty Spivak considers the position within a globalized economic space of the "new subaltern"--The Third World laboring woman." -- from <http://books.google.com> (Nov. 10, 2010).

The Struggle for a Multilingual Future Oct 24 2021 In *The Struggle for a Multilingual Future*, Christina Davis examines the tension between ethnic conflict and multilingual education policy in the linguistic and social practices of Sri Lankan minority youth. Facing a legacy of post-independence language and education policies that were among the complex causes of the Sri Lankan civil war (1983 - 2009), the government has recently sought to promote interethnic integration through trilingual language policies in Sinhala, Tamil, and English in state schools. Integrating ethnographic and linguistic research in and around two schools during the last phase of the war, Davis's research shows how, despite the intention of the reforms, practices on the ground reinforce language-based models of ethnicity and sustain ethnic divisions and power inequalities. By engaging with the actual experiences of Tamil and Muslim youth, Davis demonstrates the difficulties of using language policy to ameliorate ethnic conflict if it does not also address how that conflict is produced and reproduced in everyday talk.

Revivals, Nationalism, and Linguistic Discrimination Jan 15 2021 Is linguistic revival beneficiary to the plight of newly emerging, peripheral or even 'threatened' cultures? Or is it a smokescreen that hides the vestiges of ethnocentric ideologies, which ultimately create a hegemonic relationship? This book takes a critical look at revival exercises of special historical and geopolitical significance, and argues that a critical and cautious approach to revival movements is necessary. The cases of Sinhala, Kazakh, Mongolian, Catalan, and even Hong Kong Cantonese show that it is not through linguistic revival, but rather through political representation and economic development, that the peoples in question achieve competitiveness and equality amongst their neighbors. On the other hand, linguistic revival in these and other contexts can, and has been, used to support nationalist or ethnocentric agendas, to the detriment of other groups, recreating the same dynamics that generated the argument for revival in the first place. This book argues that respect for linguistic and other diversity, multilingualism and multiculturalism, is not compatible with linguistic revival that mirrors nation-building and essentializing identity construction.

"Ravanisation": The Revitalisation of Ravana among Sinhalese Buddhists in Post-War Sri Lanka Nov 24 2021 This book discusses Ravanisation: the revitalisation of Ravana among Sinhalese Buddhists in post-war (after 2009) Sri Lanka. The Hindu Ramayana generally portrays Ravana as a cruel king. How and why, then, has Ravana gained the interest of Sinhalese Buddhists? This study takes an ethnographic perspective to answer these questions. The book discusses multiple Ravana representations that have emerged at an urban Buddhist site (the Sri Devram Maha Viharaya) and a rural site (Lakegala), and discloses how Ravanisation relates to Sinhalese Buddhist ethno-nationalism. In addition, the material, ritual, and spatial perspectives offer unique insights in the personal and local relevance of Ravana.

Annual Review of South Asian Languages and Linguistics May 31 2022
South Asia is home to a large number of languages and dialects. Although linguists working on this region have made significant contributions to our understanding of language, society, and language in society on a global scale, there is as yet no recognized international forum for the exchange of ideas amongst linguists working on South Asia. The *Annual Review of South Asian Languages and Linguistics* is designed to be just that forum. It brings together empirical and theoretical research and serves as a testing ground for the articulation of new ideas and approaches which may be grounded in a study of South Asian languages but which have universal applicability. Each volume will have three major sections: I. Invited contributions consisting of state-of-the-art essays on research in South Asian languages. II. Refereed open submissions focusing on relevant issues and providing various viewpoints. III. Reports from around the world, book reviews and abstracts of doctoral theses.

Challenges in Implementing Best Practices in Involuntary Resettlement Nov 12 2020
Infrastructure projects sometimes physically displace households and disrupt income sources and livelihoods. The Asian Development Bank offers several good governance practices to its borrowers to minimize such adverse impacts, especially since the absorption of such best practices by countries is usually slow and erratic. This publication presents an in-depth case study from a complex and sensitive infrastructure project in Sri Lanka, where international best practices in involuntary resettlement were successfully merged with local legal systems. The publication demonstrates that the application of best practices to infrastructure projects needs continuous consultations with affected people and a firm commitment of resources.

Studies in South Asian Linguistics Jan 27 2022
This volume collects twenty-nine published and unpublished papers by the linguist James Gair, considered the foremost western scholar of the Sri Lankan languages Sinhala and Jaffna Tamil. Ranging over thirty years, his work also considers issues in a variety of Indian languages, including Hindi, Marathi, Tamil, Malayalam, and Bengali. The collection reflects the wide range of Gair's interests, from morpho-syntactic questions to

questions regarding historical and areal linguistics, especially language contact and diglossia, and extending to language acquisition. By collecting these papers and making them newly accessible, this volume will provide an important resource not only for scholars of these languages but for linguists interested in the theoretical issues Gair explores.

The Politics of English Sep 10 2020 This volume brings together contributions that explore the increasingly important roles that English plays in Asia, including its contribution to economic growth, national imaginaries and creative writing. These are issues that are political in a broad sense, but the diversity of Asian contexts also means that the social, political and cultural ramifications of the spread of English into Asia will have to be understood in relation to the challenges facing specific societies. The chapters in the book collectively illustrate this diversity by focusing on countries from South Asia, Southeast Asia and the Asia Pacific. Each country has two contributions devoted to it: one paper provides an overview of the country's language policy and its positioning of English, and another provides a critical discussion of creative expressions involving the use of English. Taken together, the papers in the volume detail the most recent developments concerning the politics of English in Asia.

The Lion's Roar Apr 17 2021 Anagarika Dharmapala (1864-1933) was a leading Sinhalese Buddhist reformer and national activist who ranks high among the makers of modern Buddhism. *The Lion's Roar* is one of the first detailed accounts of Anagarika Dharmapala's life and the pioneering role he played in the Sinhalese Buddhist nationalism at a time when resistance to colonial rule was mainly confined to the elite. The book explores his lifelong struggle for re-establishing Buddhist management of their own sacred places under Hindu control, particularly the Mahabodhi site in Bihar, India. Dharmapala's association with the Bengali intelligentsia, the 'bhadrak'ok', and close interactions with Gandhi and Nehru in India, where he spent a greater part of his life, form an interesting part of the narration. Using a rich variety of primary sources, most importantly, Dharmapala's diaries, the book situates his life within the socio-political and cultural ethos of Ceylon (Sri Lanka) and chronicles the zealous efforts of a Buddhist crusader and monk who wished to reform the religion in his native land and propagate it in the Western world.

The Concise Garland Encyclopedia of World Music: The Middle East, South Asia, East Asia, Southeast Asia Aug 10 2020 The critical importance of past for the present--of music histories in local and global forms--asserts itself. The history of world music, as each chapter makes clear, is one of critical moments and paradigm shifts.

Sri Lanka in the Modern Age Jul 29 2019 Since the late 1970s civil war has left Sri Lanka in an almost permanent state of crisis; conventional histories of the country by liberal and Marxist scholars

in the last two decades have thus tended to focus on the state's failure to accommodate the needs and demands of the minorities. The entire history of the twentieth century has been tied to this one key issue. *Sri Lanka in the Modern Age* offers a fresh perspective based on new research. Above all, the author has written a history of the peoples of Sri Lanka rather than a history of the nation-state.

Say it in Sinhala Nov 05 2022

Sri Lanka Feb 02 2020 In the past decade, Sri Lanka has been engulfed by political tragedy as successive governments have failed to settle the grievances of the Tamil minority in a way acceptable to the majority Sinhala population. The new Premadasa presidency faces huge economic and political problems with large sections of the island under the control of the Indian Peace-Keeping Force (IPKF) and militant separatist Tamil groups operating in the north and south. This book is not a conventional political history of Sri Lanka. Instead, it attempts to shed fresh light on the historical roots of the ethnic crisis and uses a combination of historical and anthropological evidence to challenge the widely-held belief that the conflict in Sri Lanka is simply the continuation of centuries of animosity between the Sinhalese and the Tamils. The authors show how modern ethnic identities have been made and re-made since the colonial period with the war between Tamils and the Sinhala-dominant government accompanied by rhetorical wars over archeological sites and place-name etymologies, and the political use of the national past. The book is also one of the first attempts to focus on local perceptions of the crisis and draws on a broad range of sources, from village fieldwork to newspaper controversies. Its interest extends beyond contemporary politics to history, anthropology and development studies.

Handbook of Research on Psychosocial Perspectives of Human Communication Disorders Dec 14 2020 Communication is a key component of everyday life, but what happens when an individual is faced with a communication disorder? Today, the prevalence of individuals with communication disorders has increased substantially. However, many of these ailments are poorly understood, and medical professionals often lack the training and research necessary to manage and treat these individuals. *The Handbook of Research on Psychosocial Perspectives of Human Communication Disorders* is a critical scholarly resource that covers needs-based issues pertaining to the assessment and management of communication disorders. It provides the latest research on the importance of early identification, as well as prevention and intervention practices to promote healthy cognitive, speech, language, motor, social, and emotional development. Featuring coverage on a broad range of topics such as speech therapy for children, behavior therapy, and communication disorders, this book is a vital reference source for clinical psychologists, audiologists, speech-language pathologists, special education teachers, occupational therapists,

physiotherapists, physiatrists, otolaryngologists, and neurologists.

Undergraduate ELT in Sri Lanka Jan 03 2020 The book looks into the South Asian experience of English language education in the first decade of the 21st century by examining its policies, practices and perspectives in Sri Lanka. It discusses the evolution of English from the language of administration of the former South Asian colony up to its present and intended, although poorly implemented, status as a "link-language" in Sri Lanka. The official removal of English as the language of administration after independence, the twists and turns of its practice in various domains over six decades, and the views of today's students and teachers reveal that there is more to English language education in a post-colonial context than current theories address. This book concentrates on what educationalists in English Language Teaching do, the goals that curriculum designers must capture, and how post-colonial attitudes towards English hinder the teaching of English as a second language. This book emphasizes that the general principles of teaching English as a second language need specific modifications at the delivery stage in South Asian societies.

Contesting the Sacred Jun 19 2021 Whether a pilgrimage centers around a place, a visionary individual, or a text, it brings widely diverse individuals and their beliefs, doctrines, and expectations into contact with each other. This important collection assesses the qualities and power of pilgrimage shrines as sites for accommodating various, often competing, meanings and practices, both among pilgrims and between shrine custodians and devotees. Contributors discuss the highly organized shrine at Lourdes and also the shrine at San Giovanni Rotondo in Sangiovese, Italy, where conflicting interests among townspeople and pilgrims have crystallized around the life and the remains, respectively, of a holy man. Other contributors consider the competing images of Jerusalem among pilgrims of various Christian faiths—Greek Orthodox, Roman Catholic, and Christian Zionist—and explore the unique attributes of shrines in Sri Lanka and Peru. A major advance in understanding the complexity of pilgrimage, *Contesting the Sacred* provides valuable insight into the process of exchange between human beings and the divine that gives pilgrimage its central rationale. John Eade's new introduction places the book's theoretical frame in the context of recent thinking and writing on pilgrimage and considers the impact of globalization and tourism on pilgrimage cults and sites.

Special Operations Command LANGUAGE TRAINING The ability to speak a foreign language is a core unconventional warfare skill and is being incorporated throughout all phases of the qualification course. The students will receive their language assignment after the selection phase where they will receive a language starter kit that allows them to begin language training while waiting to return to Fort Bragg for Phase II. The 3rd Bn, 1st SWTG (A) is responsible for all language training at the USAJFKSWCS. The Special Operations Language Training (SOLT) is primarily a performance-oriented language course. Students are trained in one of ten core languages with enduring regional application and must show proficiency in speaking, listening and reading. A student receives language training throughout the Pipeline. In Phase IV, students attend an 8 or 14 week language blitz depending upon the language they are slotted in. The general purpose of the course is to provide each student with the ability to communicate in a foreign language. For successful completion of the course, the student must achieve at least a 1/1/1 or higher on the Defense Language Proficiency Test in two of the three graded areas; speaking, listening and reading.
