The succeeding chapters are devoted to land statistics for agriculture, forestry, recreation, conservation and amenity, and other rural land uses. [Town and Country 1517 - 1550](#) Aug 29 2019 History is very good at recording wars, disasters and scandals, but does not usually record the ordinary details, such as how people went grocery shopping, everyday dramas and how the table was set for dinner. Little details like these are usually lost to the ravages of time and neglect, thought too unimportant and mundane to record. However, that is exactly what this collection of woodcuts focuses on, the scenes of the everyday lives in the town and country people in southern Germany in the early 16th century. These woodcuts provide a glimpse into the unrecorded days and lives of the people, from church festivals, shopping at the markets, wedding processions, interior scenes, and hunting trips to the Emperor coming to town, from the sacred to the profane, all in crisp black and white lines.

The Civilization of Crime Jul 29 2019 Along with most of the rest of Western culture, has crime itself become more "civilized"? This book exposes as myths the beliefs that society has become more violent than it has been in the past and that violence is more likely to occur in cities than in rural areas. The product of years of study by scholars from North America and Europe, The Civilization of Crime shows that, however violent some large cities may be now, both rural and urban communities in Sweden, Holland, England, and other countries were far more violent during the late Middle Ages than any cities are today. Contributors show that the dramatic change is due, in part, to the fact that violence was often tolerated or even accepted as a form of dispute settlement in village-dominated premodern society. Interpersonal violence declined in the seventeenth and eighteenth centuries, as dispute resolution was taken over by courts and other state institutions and the church became increasingly intolerant of it. The book also challenges a number of other historical-sociological theories, among them that contemporary organized crime is new, and addresses continuing debate about the meaning and usefulness of crime statistics. Citizen Vince Sep 30 2019 From the highly acclaimed new crime novelist: a story of witness protection, petty thievery, local politics, and murder—set against the turbulent backdrop of the 1980 presidential election It’s the fall of 1980, the last week before the presidential election that pits the downtrodden Jimmy Carter against the suspiciously sunny Ronald Reagan. In a seedy suburban house in Spokane, a small-time crook formerly from New York, Vince Camden, pockets his weekly allotment of stolen credit cards and heads off to his witness-protection job at a donut shop. A the shop he takes a shine to a regular named Kelly, who works for a local politician. Somehow he finds himself and the politician in a parking lot at three in the morning, giving the slip to a couple of menacing thugs. And then he crosses the path of a young detective—and discovers his credit-scam partner, lying dead in his passport-photo office with a Cheerio-size bullet-hole in his head. No one writing crime novels today tells a story or sketches a character with more freshness or elan than Jess Walter. Citizen Vince is his funniest and grittiest book yet.

[Town and Country in China](#) Apr 29 2022 The transformation in Chinese social theory in the twentieth century placed the rural-urban divide at the centre of individual identity. In 1500, such distinctions were insignificant and it was the emergence of political reforms in the early 1920s and 1930s which separated cities and towns as agents of social change and encouraged a perception of rural backwardness. This interdisciplinary collection traces the development and distinctions between urban and rural life and the effect on the Chinese sense of identity from the sixteenth century to the present day. It provides a daunting example of the influence that political ideology may exert on an individual’s sense of place.
