Sustainable Development and Social Responsibility—Volume 2 Oct 11 2020 This book gathers high-quality research papers presented at the 2nd AUE international research conference, AUEIRC 2018, which was organized by the American University in the Emirates, Dubai, and held on November 13th-15th, 2018. The book is broadly divided into two main sections: Sustainability and Smart Business, and Sustainability and Creative Industries. The broad range of topics covered under these sections includes: risk assessment in agriculture, corporate social responsibility and the role of intermediaries, the impact of privatizing health insurance, political events and their effect on foreign currency exchange, the effect of sustainable HR practices on financial performance, sustainability integration in the supply chain and logistics, gender inequality in the MENA economies, the panel data model, the model of sustainable marketing in the era of Industry 4.0, micro-enterprises as a tool for combating unemployment, the impact of financial education and control on financial behavior, measuring financial and asset performance in agricultural firms, a comprehensive strategic approach to sustainability in the UAE, sustainability and project finance, HR analytics, FaD or fashion for organizational sustainability, a conceptual framework of sustainable competitive advantages, psychology of organizational sustainability, Blockchain technology and sustainability, veganism and sustainability, institution building from an emotional intelligence perspective, sustainable concrete production using CWP, occupants' behavior and energy usage in Emirati houses, the effect of shop lighting on consumer behavior, multimedia applications in digital transformation art, integrating biomimicry principles in sustainable architecture, experimental sustainable practices in fashion education, technology-assisted student-centered learning for civil engineering, and a 10-step design process for architectural design studios. All contributions present high-quality original research work, findings and lessons learned in practical development.

Public Awareness of Malpractice during the Examinations by WAEC in Nigeria May 30 2022 Academic Paper from the year 2017 in the subject Sociology - Individual, Groups, Society, , language: English, abstract: This paper examined the impact of awareness creation and administration of various sanctions on examination malpractice, using the West African Examinations Council as a case study. The effects of the awareness level and the sanctions were also critically x-rayed with a view to applauding the results if encouraging or suggesting an improved strategy for an effective control and noticeable reduction in the rate of examination malpractice in public examinations like the West African Senior Secondary Certificate Examinations (WASSCE) conducted by WAEC. The rate of candidates' involvement in malpractice during the public examinations conducted across West African subregion is of great concern to many stakeholders. In spite of stringent measures taken to curb malpractice, the rate of involvement seems to be increasing geometrically. It is in reaction to this worrisome trend that this study was conducted to probe into the root-cause of continuous indulgence in malpractice during the examinations conducted by the West African Examinations Council (WAEC) in Nigeria. This is with a view to measuring the public awareness level as regards the implications of involvement in examination malpractice and appealing to their moral instinct to eschew this menace, using the proposed theory of awareness-creation and sanction-strategy (SACS). The study employed purposive sampling technique in selecting 10 (ten) states where various stakeholders in education were sampled for the administration of a questionnaire

designed to gauge their knowledge of implications of involvement in examination malpractice of different forms. One thousand copies (1,000) of the instrument were administered in the States of Abia, Katsina, Kebbi, Benue, Kwara, Cross-River, Bayelsa, Nasarawa Niger and Edo among the Senior Secondary three Students, their teachers and parents of the same students. These states were purposively selected for their high level of malpractice recorded in the examination conducted by WAEC in recent times. Out of the administered copies of the instrument, nine hundred and forty-two (942) were retrieved for analysis.

Challenges and Prospects in African Education Systems Aug 21 2021 Challenges and Prospects in African Education System:

The general idea this book is trying to disseminate is to inform readers about the compelling challenges and prospects in African system of education. As we all know, when issues of Africa educational system is raised, the first set of thoughts that come to mind is decline in standard, deterioration of facilities, examination malpractices, cult crises or school-based violence, shortage of teachers, underqualified teachers, and poor teachers performance, which results in poor learning standards, lack of classroom discipline that is exacerbated by insufficient resources and inadequate infrastructure, failure of appropriate inspection and monitoring, and confusion caused by changing curricula without proper communication and training. All these have led to massive demoralization and disillusionment among teachers and a negative and worsening perception of African system of education. This, therefore, calls for in-depth analysis aimed at tutoring every stakeholder in education on how their action and inactions have individually and collectively contributed to the collapsing state of education in Africa. However, the prospect is that Africas recovery and sustainable development can only be guaranteed through expansion and sustenance of both quantitative and qualitativeof the continents stock of human capital through education. In order for education to realize its key role in development, it must be provided to the younger segments of African society as quickly as human and financial resources permit, with the ultimate goal of developing a comprehensive, meaningful and sustainable system of education at all levels and for all age groups.

This is the message that this book puts across in the six knitted sections.

School Science Practical Work in Africa Nov 04 2022 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching practical work. This book will be of great interest to academics, researchers and post-graduate students in the fields of science education and educational policy.

The Wiley Handbook of Global Workplace Learning Feb 01 2020 Inclusive Guide Provides Practical Applications for Workplace Education Theory from Diverse Perspectives The Wiley Handbook of Global Workplace Learning explores the field of workplace education using contributions from both experts and emerging scholars in industry and academia. Unlike many previously published titles on the subject, the Handbook focuses on offering readers a truly global overview of workplace learning at a price point that makes it accessible for independent researchers and Human Resources professionals. Designed to strike a balance

between theory and practice, the Handbook provides a wealth of information on foundational topics, theoretical frameworks, current and emerging trends, technological updates, implementation strategies, and research methodologies. Chapters covering recent research illustrate the importance of workplace learning topics ranging from meditation to change management, while others give pragmatic and replicable applications for the design, promotion, and implementation of impactful learning opportunities for employees at any company, regardless of industry. A sampling of topics addressed includes: “Using an Experiential Learning Model to Design an Assessment Framework for Workplace Learning” “Measuring Innovative Thinking and Acting Skills as Workplace-Related Professional Competence” Multiple chapters specifically addressing international business, such as “Competency in Globalization and Intercultural Communication”, “Global Strategic Planning” and “Global Talent Management” Research and recommendations on bridging generational and cultural divides as well as addressing employee learning disabilities With its impressive breadth of coverage and focus on real-world problem solving, this volume serves as a comprehensive tool for examining and improving practices in global workplace learning. It will prove to be a valuable resource for students and recent graduates entering the workforce and for those working in Human Resources and related fields.

WAEC in Review Sep 02 2022 WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army–Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia

Vocationalisation of Secondary Education Revisited Jul 20 2021 The book is a cutting-edge contribution to the debate which has occurred for some time on the pros and cons of secondary education becoming more closely and explicitly related to preparing young people for the world of work. The book provides concrete examples of the vocationalisation of secondary education, with particular reference to the situation in Africa. The target audience for the book includes policy-makers, practitioners,

administrators, education planners, researchers, teachers and teacher educators with a concern about the relationship between secondary education and education for the world of work (with particular reference to technical and vocational education and training - TVET.) The book appears in the Springer book series on 'Technical and Vocational Education and Training: Issues, Concerns and Prospects' and compliments the 'International Handbook of Technical and Vocational Education and Training' and other publications in the 'International Library of TVET' all of which are publications of the 'UNESCO-UNEVOC International Centre for TVET' in Bonn, Germany
