[Fundamentals of Patenting and Licensing for Scientists and Engineers Apr 17 2021](#) This book is the first of its kind to teach scientists and engineers how to go beyond simply getting a patent granted. It covers various aspects, from basic concepts of patent laws, patent preparation to patent post granting, in an easy-to-understand language for inventors. It also introduces the basis of patent licensing and related business aspects, helping inventors create patents that can be better capitalized. Through the author's extensive scientific background and experience, it provides common pitfalls and tips on how an inventor should assist in all phases of patent filing, prosecution and licensing.

[California Antitrust and Unfair Competition Law Revised Edition Jul 29 2019](#) Our California antitrust and unfair competition law derives from statutes, policies, concerns, and history unique to our state. This new treatise is being launched to comprehensively document and describe this area of law which presents a broad and rich palette for practitioners and regulators. Highly experienced practitioners of differing perspectives were engaged to undertake a fresh, balanced and comprehensive review of each subject area of our state's antitrust and unfair competition laws. Teams of peer reviewers also drawn from the ranks of our state's leading practitioners were tasked with the review of every chapter. Several new subject matters addressing the application of our antitrust and unfair competition laws to various industries were added, including health, regulated industries, electronic media and internet and labor. Additionally, there are chapters addressing joint ventures and franchises, pretrial and trial considerations, and attorney's fees and costs. Lastly, California Antitrust and Unfair Competition Law greatly expands coverage of related consumer and unfair competition laws. The eBook versions of this title feature links to Lexis

Advance for further legal research options.

**Hard Copy** Mar 29 2022 The Hard Copy is a work that walks the line between the exotic artists' book and the democratic, mass-produced multiple. Appropriating ideas and visual references from Stewart Brand's Whole Earth Catalog, Hard Copy represents the power that the tool bestows on the contemporary artist by listing, reviewing and appropriating information on a selection of 'artists' tools.

**The Mandel Files, Volume 1: Mindstar Rising & A Quantum Murder** Mar 17 2021 For the first time in a single volume, Peter F. Hamilton's acclaimed novels—Mindstar Rising and A Quantum Murder—set in a near-future so real it seems ripped from tomorrow's headlines In Mindstar Rising, Greg Mandel, gifted—or cursed—with biotechnology that makes him a living lie detector, is hired to investigate corporate espionage by Event Horizon, a powerful company about to introduce a technology that will solve the energy problems of a world decimated by global warming. Set two years later, A Quantum Murder once again teams Mandel with Event Horizon and its beautiful young owner, Julia Evans, in a locked-room mystery that combines the ingenuity of an Agatha Christie novel with cutting-edge speculative brilliance. Read together, these novels take on fresh depth and complexity, underscoring the magnitude of Peter F. Hamilton's creative talent.
