PunkRockPaperScissors Jul 05 2020 "If you were any part of the hardcore scene in the 80's, whether in a band, a promoter or a fan, you came across punk rock show flyers. You either made flyers or you plastered your bedroom walls with them. This book is a tribute to those flyers. There were no computers used back then to create them; they were penned, cut, taped, glued and posted on walls, telephone poles, car windshields or merely handed to you at a show. We all collected flyers throughout the years and for some reason couldn't part with them. I knew I always wanted to do something productive down the line with them. So I decided to pool flyers of mine along with Danny, Art, Joe, Keven, Greg and batting clean-up, Dave Schwartzman. There is no real chronological order to the layout of the book. They fall in the order in which the scene unfolded to us at that time. This book is flyers and flyers only. Pure punk rock nostalgia. Enjoy Lee"--Page 7.

Poverty in the Philippines Nov 28 2019 Against the backdrop of the global financial crisis and rising food, fuel, and commodity prices, addressing poverty and inequality in the Philippines remains a challenge. The proportion of households living below the official poverty line has declined slowly and unevenly in the past four decades, and poverty reduction has been much slower than in neighboring countries such as the People's Republic of China, Indonesia, Thailand, and Viet Nam. Economic growth has gone through boom and bust cycles, and recent episodes of moderate economic expansion have had limited impact on the poor. Great inequality across income brackets, regions, and sectors, as well as unmanaged population growth, are considered some of the key factors constraining poverty reduction efforts. This publication analyzes the causes of poverty and recommends ways to accelerate poverty reduction and achieve more inclusive growth. it

also provides an overview of current government responses, strategies, and achievements in the fight against poverty and identifies and prioritizes future needs and interventions. The analysis is based on current literature and the latest available data, including the 2006 Family Income and Expenditure Survey.
